

**RIZZ**<sup>®</sup>  
THE ENTRANCE  
COLLECTION

◦ THE STORY ◦

## THE ENTRANCE MAKES ALL THE DIFFERENCE

RiZZ is all about products that define the entrance, the central space that accommodates many daily functions and where you make your first impression.

We have developed a design philosophy to improve all the different functions one can think of, both outside and inside, while maintaining a strict and timeless design language.

## TIMELESS FUNCTIONALITY

We believe in timeless pieces that you will want to keep with you, no matter how many times you redecorate your house or how often you move to another place. You will grow accustomed to their functionality and attached to the smooth design that fits your meandering tastes through the years. Therefore, we make products that can withstand the test of time and even fit in with different cultures and locations. That is why you can find your RiZZ dealer in almost every region.

## CLEAR CONSCIENCE

“Think of our factory as a place of magic, a place where craftsmanship comes naturally because we love the products that we make. Ever since my grandfather founded the factory in 1941, local craftsmen has been our greatest assets.”

Sebastian Zuiddam, 3rd generation in the company.

Want to indulge yourself in luxury but still have a clear conscience when it comes to the environment? With RiZZ products it is possible: each product was especially designed to minimise its environmental footprint. Go see for yourself.

## THE ICONS

We have developed these icons to show what we have done to minimise the carbon footprint of the various products in RiZZ | the entrance collection.

SUGGESTION

◦ COAT RACK COLLECTION ◦

RIZZ®

## ◦ COAT RACK COLLECTION ◦

---

The coat rack collection consists of multiple components that fit together by means of an inventive and patented connector. By adding new components it is possible to change your coat rack in other forms or to extend it. Disassemble it to a smaller coat rack if this suits you. We have created a system that you can keep with you for life, even when you move or redecorate.

Coats, jackets, scarves etc. can be hung on the leaves. Select any number of leaves in matching colours (ton sur ton) with the tube for a distinguished design or choose different colours to give your coat stand a more playful appearance. The end cap, when placed horizontally, also functions as a coat hook. Naturally, coat hangers can be used on any horizontal line. Coathanger 'The 'Sparrow' is a perfect match.

---

The coat rack collection is divided into 5 groups:

### FREE STANDING

The free standing coat stands from RiZZ require little space and no fixing.

### FIXED

These coat racks are fixed to the wall or ceiling to keep an open floor.

A more spacious and clean appearance of your entrance is the result.

### HYBRID

Special designs to meet your demands.

### PARTS

Redesign your coat rack. Parts are available.

### ACCESSORIES

Add as many leaves or hangers as you need. Individual design.

◦ FREE STANDING COAT STANDS ◦

## ◦ FREE STANDING COAT STANDS ◦

### PALM & PINE

Simple and elegant. The split on top of the 'Palm' coat rack makes it possible to hang longer jackets or raincoats on a coat hanger or on the end.

### WHY TO BUY?

- Free standing coat stand
- Add leaves to increase the number of articles you can store
- Change 'Pine' to 'Palm' or other design by using the connector

Design: Teun Fleskens

### 'PALM'

3x 'Leaf' included

## ◦ ACCESSORIES ◦

### THE SPARROW

“In our quest for the ideal thickness for the coat hanger we found that male and female respondents both had their own favourite. Therefore we created 3 versions dedicated to you. I hope you will come to love your own version”.

Teun Fleskens, designer

repels moths

### WHY TO BUY?

- The natural scent of cedar wood keeps moths out of your wardrobe. No chemicals required
- The solid appearance of ‘The Sparrow’ coat hanger makes it hard to believe that it is so comfortably lightweight
- The coat hanger is made of cedar with a sustainable Birchwood core
- The collection of coat hangers fits most wardrobe systems, yet it is designed specifically to complete the RiZZ wardrobe system
- Made in the Netherlands

## ◦ ACCESSORIES ◦

### LEAF

The 'Leaf' is specifically suitable for the vertical tubes on the RiZZ coat rack system. The leaves hang on their own weight. When you hang a jacket on the leaf coat hook, the extra weight makes the fix stronger.

### WHY TO BUY?

- You can simply add leaves to store more pieces on the vertical tube of a RiZZ coat rack
- Make a matching combination 'ton sur ton' or choose to be different by selecting a different colour
- The coconut and beech finish are made of liquid wood. The most durable solution made from biological material one can think of and a very efficient production process
- Adjustable in height!

◦ CHIT CHAT ◦

## ◦ CHIT CHAT ◦

### PERFECT FOR PUBLIC ENTRANCES

Waiting in public spaces can always be made more fun. With that goal in mind we designed the 'Chit Chat'. A swinging seat made from multiplex or polyester that seats one to seven people.

If you take a seat, you bring the furniture and everyone who is sitting on it into motion. This almost always leads to interaction. It is surprising and encourages you to talk about it with your neighbour, forces strangers to work together to find the best balance. This breaks the ice, improves the atmosphere and waiting is made less boring.

### WHY TO BUY?

- Connects people
- Perfect for public spaces
- The 'rocking trees' in the middle provide a playful effect, especially with more 'Chit Chats' in a single space
- Multiplex is only intended for indoor use
- Polyester version is suitable both for indoor and outdoor use
- Made in the Netherlands

◦ CANDLE STAND COLLECTION ◦

◦ OVERVIEW STANDARD MODELS ◦

◦ EXAMPLES OF SPECIALS ◦

## ◦ CANDLE STAND COLLECTION ◦

---

Because we believe in durability, we created a collection of candle stands that lasts a lifetime. Our candle stands consist of multiple components that can be combined, and used both indoor and outdoor. The components fit together by means of our inventive and patented connector, the same design that is used in our coat rack collection.

RiZZ candle stands are both standard and made-to-measure. By adding or changing components, it is possible to change the model of a standard candle stand, or to create your own unique model.

To vary, it is possible to combine multiple colours and materials. All components are available in white, anthracite, stainless steel and copper.

Because of the high quality, strong stainless steel tubes and weather-proof coating, all candle stands and holders are suitable for indoor and outdoor use. The glass wind light protects the candle against movement or wind and keeps the flame burning.

RiZZ candle stands: for a warm and inviting ambience.

---

The candle stand collection consists of the following groups:

### TABLE MODELS

The table models of the RiZZ candle stand collection bring a nice and warm ambience on every table.

### WALL MODELS

The wall models are fixed on the wall for an inviting atmosphere.

### FREE STANDING MODELS

The free standing models are easy to move and very suitable for outdoor use.

### CANDELABRAS

Candelabras are available up to big models with seven candles.

### SPECIALS

Because of the modular system, it is possible to create your own candelabra. Contact the RiZZ team to transfer your imagination into an exclusive and one-of-a-kind object.

## ◦ TABLE MODELS ◦

---

---

Design: Teun Fleskens

The table models of our candle stand collection are:

### CANDLE HOLDER 'DISH'

Let the weight of 'Dish' surprise you. *"This is our massive stainless steel tribute to durability. 'Dish' is the heart of this candle collection, the stable base of every product"*. Teun Fleskens, designer

### WIND LIGHT 'DOME'

Keeps the flame burning. Makes every candle stand or – holder suitable for indoor and outdoor use. Protects the candle from wind and increases safety.

### CANDLE HOLDER 'DISH + DOME'

Brings a warm ambience on every table; indoor or outdoor.

### CANDLE STAND 'TORCH'

The massive candle stand based on the well-known RiZZ 'Trumpet' shape.
